This handbook contains information about your State of Iowa employee benefits.

ANNUAL ENROLLMENT AND CHANGE PERIOD

The annual enrollment and change period for health and dental plans, Flexible Spending Accounts, life insurance and the Premium Conversion Plan (Pretax), will be held from October 1, 2012 through November 16, 2012.

The 2013 enrollment and change period is an open enrollment period for health insurance.

Please use this enrollment and change period as an opportunity to review your benefits and ensure that all persons who are covered by your plan are eligible.

You must enroll or make changes in IowaBenefits, or sign and return the appropriate enrollment forms to your Personnel Assistant, no later than November 16, 2012. (Please see your Personnel Assistant for additional enrollment materials.)

Changes will be effective January 1, 2013.

Voluntary Premium Contribution Program

All State of Iowa employees have the opportunity to elect to voluntarily pay 20% of their premiums for single or family health insurance.

The Voluntary Premium Contribution Program health insurance plans are identical to the current health plans except for the additional provision of preventative services. These slight differences are necessary to remain in compliance with recent federal health care reform legislation. The total premium for these plans will be slightly higher because of these additional services.

These plans are available only to active

employees, not to retirees or persons who elect COBRA continuation upon termination of employment. If you retire or terminate employment and have elected to participate in the Voluntary Premium Contribution Plan, you will need to change back to the non-voluntary plan once you are no longer an active employee.

If you elect a Voluntary Premium Contribution plan during this enrollment and change period, you will not be able to make a change in 2013 unless you experience a qualifying life event that permits a change of health plans.

For additional information about the differences between the Regular Health Insurance Plans and the Voluntary Premium Contribution Health plans, refer to the information in IowaBenefits.

Online Enrollment

You can enroll online through IowaBenefits, a web-based enrollment system. This system allows you to enroll for health, dental, FSA, life and LTD benefits and make qualifying benefit changes throughout the plan year and during the annual enrollment and change period.

You can select single or family coverage, add and remove eligible family members from your plan, and inform the insurance carrier of address and phone number changes. You will be able to make these changes to your coverage via the internet and you will no longer have to complete a paper application for most changes. You will also have the ability to print an individualized summary of your benefit elections.

This system allows for more efficient and

2013 benefit highlights

accurate information in both the State's payroll system and the insurance carriers' membership system. You should notice faster response time for benefit changes, including a quicker turn-around time for receiving insurance ID cards.

You can visit IowaBenefits by going to www.benefits.iowa.gov and clicking on the IowaBenefits logo.

Health Flexible Spending Account

The maximum annual limit for the health flexible spending account plan is \$2,500. This maximum is set by federal law and applies to each participant, regardless of marital status. If both spouses are eligible to participate, each spouse may elect up to \$2,500.

Verification of Full-Time Students Over the Age of 26

During this enrollment and change period, DAS will be verifying eligibility for all full-time students currently enrolled on employees' group insurance plans. A *Full-Time Student Verification Form* and a *Certification Form* for tax purposes will be sent to your Personnel Assistant if you have a full-time student over age 26 on your plan. Your Personnel Assistant will provide you these forms and you must complete and return them before the end of the enrollment period if you wish to continue coverage for your student. If you do not return these forms along with current proof of the student's full-time status, your student will be removed from your plan effective December 31, 2012. You will not be able to add this dependent onto the State's plan until the next enrollment and change period unless there is a qualified life event affecting the coverage for this dependent.

Any time that a full-time student over age 26 is being added to the group insurance plan, these forms and proof of full-time student status must be submitted. The dependent will not be able to be added without all the

required documentation.

Verification of Eligibility for Full-Time Benefits

You must work at least 30 hours per week on a regular basis to be eligible for full-time benefits. The Department of Administrative Services regularly reviews reports to identify employees who do not work the minimum hours required for full-time benefits. Coverage may be reduced or removed depending on hours worked.

FEDERAL LAW NOTICES

Health Care Reform

The federal Patient Protection and Affordable Care Act (ACA) requires the following statement to be included in all materials describing the health plan benefits offered.

The State of Iowa believes that all non-voluntary premium contribution health plans offered to active employees in the State's group, are "Grandfathered" health plans. The ACA permits a grandfathered health plan to preserve certain basic health coverage that was already in effect when ACA was enacted. Being a grandfathered plan means that the State of Iowa group health plans may not include certain consumer protections of the ACA that apply to other plans, for example, the requirement for the provision of preventive health services without any cost sharing. However, grandfathered health plans must comply with certain other consumer protections in the ACA, for example, elimination of all pre-existing condition waiting periods for all children under the age of 19. For further information please contact the Customer Service number on the back of your Wellmark identification card.

Newborns' and Mothers' Health Protection Act of 1996

Under federal law, group health plans generally may not restrict benefits for any hospital length of stay in connection with childbirth for the mother of a newborn child to less than 48 hours following a vaginal delivery, or less than 96 hours following a cesarean section. However, federal law generally does not prohibit the mother's or newborn's physician, after consulting with the mother, from discharging the mother or her newborn earlier than 48 hours (or 96 hours as applicable). In any case, a group health plan may not, under

federal law, require that a provider obtain authorization from the group health plan for prescribing a length of stay not in excess of 48 hours (or 96 hours).

Women's Health and Cancer Rights Act

As required by the Women's Health and Cancer Rights Act (WHCRA) of 1998, the State of Iowa health plans cover mastectomy-related services.

For members receiving mastectomy-related benefits, coverage will be provided, in a manner determined in consultation with the attending physician and patient, for:

All stages of reconstruction of the breast on which the mastectomy was performed; Surgery and reconstruction of the other breast to produce a symmetrical appearance; Prostheses; and Treatment of physical complications of the mastectomy, including lymphedema.

These benefits will be provided subject to the same deductible and coinsurance applicable to other medical and surgical benefits provided under the plans.

If you have any questions or concerns, please contact Wellmark customer service at the phone number on your Wellmark ID card.

benefits general information

Introduction to This Handbook

The Risk and Benefits Management Team of the Iowa Department of Administrative Services developed this handbook to provide you with information about your benefit options for 2013, explain the enrollment and change process, and serve as a valuable resource for information about your benefits. It's a good idea to take some time to read this handbook before completing your enrollment forms and if applicable, discuss with your family members.

The benefits described in this handbook are subject to change. Nothing herein shall be construed as a guarantee of benefits.

This handbook is not a complete description of the State of Iowa's benefit plans. Nothing in this handbook supersedes or changes any of the terms and conditions of any plan documents, insurance policies, or other legal agreements. If the wording in this handbook contradicts any plan documents, administrative rules, insurance policies, or other legal agreements, the wording in the official documents and agreements will govern.

If you have any questions, please contact your Personnel Assistant or the appropriate vendor. You can also find information in IowaBenefits.

Quick Reference

Although it's a good idea to review this entire handbook, there are a few sections that apply to different types of enrollment.

benefits general information

Structuring Your Benefits

The State of Iowa recognizes that employees have different needs. That's why the State offers a benefit program that allows you to choose among a number of benefit options. You can select from these options to design the benefit plan that's right for you.

You are encouraged to carefully consider your personal situation as you evaluate your benefit choices. State of Iowa benefits include:

- Deferred Compensation
- Dental Insurance
- Employee Assistance Program
- Employee Discount Program
- Flexible Spending Accounts
- Group Life Insurance
- Health Insurance
- Long Term Disability Insurance
- Premium Conversion Program
- Sick Leave Insurance Program Upon Retirement (SLIP)
- Wellness/Smoking Cessation

This handbook provides summary information about each of these programs, as well as Workers' Compensation.

Eligibility for Benefits

You are eligible to participate in the plans described in this handbook if:

- You are a permanent (nontemporary) employee, and
- You work at least 20 hours a week on a regular basis (30 hours a week for life and long term disability benefits).

If you have questions about your eligibility for benefits, please see your Personnel Assistant.

If you are on leave without pay for any reason, you should check with your Personnel Assistant to see what benefits you are eligible to continue and to ensure that appropriate payments are being made.

Paying for Your Insurance Benefits

PREMIUM CONVERSION PLAN (PRETAX)

The Premium Conversion Plan (Pretax) allows you to pay your share of health, dental, and supplemental life insurance while saving money on your income and FICA taxes. This means that your premiums are deducted from your salary before taxes are calculated. For example: If your monthly premium for medical, dental, and life insurance is \$150 a month and your tax rate is 28%, you would be saving \$42 a month, or \$504 a year, in taxes. You are automatically enrolled in the plan. If you do not want to participate, you must complete a *Pretax Premium Conversion Form* and submit it to your Personnel Assistant. Changes can only be made within 30 days of hire, during the enrollment and change period, or at the time of a qualified life event.

Note that participation in this program lowers your wages for Social Security purposes and excludes you from the ability to claim your insurance premiums as medical expenses on your annual income tax forms.

Employees who elect more than \$30,000 in supplemental life insurance are subject to imputed income taxes.

See page 24 for more information.

benefits general information

How to Enroll

(AT THE TIME OF INITIAL EMPLOYMENT)

After you have made your decisions, enroll online for health, dental, life and long term disability insurance and flexible spending accounts. (Complete the appropriate forms if your agency does not allow employees to use IowaBenefits to enroll.) Enroll within the first 30 days of employment.

You may enroll in deferred compensation or

tax sheltered annuities (if eligible) at any time.

That's it! Insurance coverage will become effective the first day of the calendar month following the date you complete one month of continuous employment. Flexible Spending Account (FSA) enrollment will become effective no later than 30 days after you have enrolled.

HOW DO I ENROLL AT THE TIME OF INITIAL EMPLOYMENT?

BENEFIT PLAN	FORMS NEEDED	
BASIC LIFE INSURANCE	Enroll through IowaBenefits	Enroll online within the first 30 days of your employment. (Complete an application form if your agency does not allow enrollment via IowaBenefits.)
SUPPLEMENTAL LIFE INSURANCE	Enroll through IowaBenefits	Enroll for up to the maximum amount of coverage available for your bargaining status during your first 30 days of employment. After that point in time, you must have a qualified life event and complete the Personal Health Application form. The effective date of the additional amount will depend on approval and the timing of the approval.
DENTAL PLAN	Enroll through IowaBenefits	Enroll online within the first 30 days of your employment. (Complete an application form if your agency does not allow enrollment via IowaBenefits.) This may be your only chance to enroll unless a special open dental enrollment is offered.
LONG TERM DISABILITY	N/A	You are automatically enrolled once you are enrolled in basic life.
MEDICAL PLAN	Enroll through IowaBenefits	Enroll online within the first 30 days of your employment. (Complete an application form if your agency does not allow enrollment via IowaBenefits.)
PREMIUM CONVERSION PLAN (PRETAX)	Pretax Premium Conversion Program Form	You are automatically enrolled unless you request not to be within 30 days of your employment. Changes can only be made during the enrollment and change period or within 30 days of a change in family or employment status.
DEPENDENT CARE FLEXIBLE SPENDING ACCOUNT (FSA)	Enroll through IowaBenefits	Enroll online within the first 30 days of your employment. (Complete an enrollment form if your agency does not allow enrollment via IowaBenefits.) Changes can only be made during the enrollment and change period or within 30 days of a change in family or employment status.
HEALTH CARE FLEXIBLE SPENDING ACCOUNT (FSA)	Enroll through IowaBenefits	Enroll online within 30 days of your employment. (Complete an enrollment form if your agency does not allow enrollment via IowaBenefits.) Changes can only be made during the enrollment and change period or within 30 days of a change in family or employment status.

benefits general information

How to Make Changes

(TO HEALTH INSURANCE DURING THE ENROLLMENT AND CHANGE PERIOD)

(Health references exclude the State Police Officers Council)

ABOUT THE ANNUAL HEALTH PLAN ENROLLMENT AND CHANGE PERIOD

Each year during the enrollment and change period you choose the medical plan and coverage you wish to have for the next year.

This year, the annual health plan enrollment and change period is October 1, 2012 through November 16, 2012. Changes will be effective January 1, 2013 with deductions beginning with the December 28th paycheck.

During this period, you may change your health plan as described below:

- Select any health plan offered for which you are eligible
- Enroll yourself if you previously declined health coverage
- Enroll any eligible family members who are not already covered on your health plan
- Remove family members from your health plan

You and your eligible family members may be added to the health plan regardless of any pre-existing conditions as long as you enroll during this enrollment and change period.

However, if a dependent has previously been removed because you did not respond to a dependent verification request, that dependent will not be added until you have provided the required dependent verification information.

Dependents eligible for family coverage are:

- Your spouse

- Your domestic partner
- Your married or unmarried children under age 27, whether or not they live in Iowa
- Your unmarried children who are totally and permanently disabled prior to age 27
- Your unmarried children over age 26* that are full-time students

*There will be tax consequences to you if these dependents do not qualify as your tax dependent. See your Personnel Assistant for more details. You may also want to contact your tax advisor.

If you wish to stay with your current plan, no action is required.

benefits general information

To Request Changes During the Enrollment and Change Period

Enrollment Deadline is November 16, 2012.

After you have made your decisions, enter your changes online for health, dental, life and long term disability insurance and flexible spending accounts. (Complete the appropriate forms if your agency does not allow employees to use IowaBenefits to enroll.)

If, after you have reviewed all information, you do not want to change your current benefits, no action is required.

That's it! Changes will become effective January 1, 2013.

WHAT ACTIONS DO I NEED TO TAKE?

BENEFIT PLAN	ACTION NEEDED
DEPENDENT CARE FLEXIBLE SPENDING ACCOUNT (FSA)	Enroll through IowaBenefits if you wish to make your annual designation to participate in the plan. File a form if your agency has not authorized you to use IowaBenefits to enroll.
HEALTH CARE FLEXIBLE SPENDING ACCOUNT (FSA)	Enroll through IowaBenefits if you wish to make your annual designation to participate in the plan. File a form if your agency has not authorized you to use IowaBenefits to enroll.
MEDICAL PLAN	Enroll through IowaBenefits if you wish to change plans, you are enrolling for the first time, or you wish to add or remove eligible family members. File a form if your agency has not authorized you to use IowaBenefits to enroll.
PREMIUM CONVERSION PLAN (PRETAX)	Complete the Pretax Premium Conversion Program Form if you wish to change your status. You were automatically enrolled unless you requested not to be within 30 days of your employment. Changes can only be made during the enrollment and change period or within 30 days of a change in family or employment status.
LIFE INSURANCE	Request changes through IowaBenefits. If you want to apply to increase your coverage, complete the Personal Health Application and mail it to the insurance carrier. If your agency has not authorized you to use IowaBenefits to enroll, you must also complete the Application for Supplemental Term Life Insurance and Request to Decrease Supplemental Term Life Insurance.

benefits general information

How to Make Health Insurance Changes at Other Times

NEW ENROLLMENT

New employees can enroll in single or family coverage within thirty (30) calendar days following their date of employment. When you enroll in benefits, your benefit elections remain in effect to the end of the calendar year.

You cannot make any changes until the next enrollment and change period unless you experience a qualified life event and the benefit change you request is consistent with the event. For example, a marriage is a family status change that would allow you to change from single health coverage to family coverage because acquiring a spouse is consistent with a gain in eligibility for health coverage.

CHANGES DUE TO QUALIFIED LIFE EVENTS

Qualified events are defined by Section 125 of the Internal Revenue Code, based on individual circumstances and plan eligibility. This list may not apply to every benefit plan. Please see the Life Event Matrix in IowaBenefits.

YOU MAY BE ABLE TO CHANGE YOUR BENEFIT ELECTIONS IF...

- You have a change in your **employment status**
- Your **spouse or dependent** has a change in their **employment status**
- You have a change in your **legal marital status**
- You have a change in the **number of your dependents**
- Your **dependent** has a change in his or her **eligibility status**
- You, your spouse, or dependent has a **change in residence**
- You, your spouse, or your dependent becomes entitled to **Medicare or Medicaid**
- You are served with a **judgement, order,**

or decree

- There is a **change in cost** by your dependent care provider

SPECIAL ENROLLMENT UNDER HIPAA

Opportunities to enroll in or change coverage during the year – Under the Health Insurance Portability and Accountability Act of 1996 (HIPAA), a special enrollment period for health insurance is available in the following circumstances. You may enroll in the health plan, or, if you are already enrolled in a health plan, you can add eligible family members to your existing health plan AND enroll in a different health plan **within 30 days** of either of the following events:

- Loss of other health coverage
- Marriage

You may enroll in the health plan, or, if you are already enrolled in a health plan, you can add eligible family members to your existing health plan AND enroll in a different health plan **within 60 days** of any of the following events:

- Adoption or placement for adoption
- Birth
- Employee or dependent has a loss of Medicaid, hawk-i, or other State Children's Health Insurance Program (SCHIP)
- Employee or dependent becomes eligible for premium assistance from Medicaid, hawk-i, or other SCHIP.

Other opportunities to change health plans during the year – If you are already enrolled in a health plan, the following life events allow you to enroll in a different health plan regardless of whether you are adding eligible family members.

- Commencement of an unpaid leave of absence or FMLA leave in excess of 30 days
- Death of spouse or dependent
- Decrease in work hours from full-time (30 or more hours per week) to part-time (20-

benefits general information

- 29 hours per week)
- Divorce or legal separation
- Return from an unpaid leave of absence or FMLA leave in excess of 30 days

BIRTH OF A CHILD

At the time of the birth of a biological child, Wellmark Blue Cross Blue Shield (BCBS) will add the newborn to an existing family health contract when information becomes available from any valid source that this birth occurred (e.g., hospital or professional claim submission, online enrollment or an enrollment form). The effective date of the enrollment will be the date of birth.

If a single contract is in effect at the time of the birth of a biological child, the employee must enroll online or submit an application form to change to a family contract within sixty (60) days following the date of birth. The effective date of the family contract will be the first day of the month in which the biological child was born. The employee's share of the family premium, if applicable, begins with the effective date.

If a single contract holder does not make the change in IowaBenefits or submit the application for family coverage within sixty (60) days following the birth of the biological child, the child will not be able to be added until the following enrollment and change period and benefit payments will not be retroactive to the date of birth.

CHANGING YOUR COVERAGE

To change your coverage when a qualifying event occurs **you must act within 30 days of the event (60 days in the case of birth, adoption or loss of Medicaid, hawk-i, or SCHIP, or eligibility for premium assistance from Medicaid, hawk-i, or SCHIP)** for the change to be accepted; otherwise, you will have to wait for the next enrollment and change period in which you are eligible to participate and have the change become effective the

following January. You may be asked to provide documentation of the change.

Coverage is generally effective the first of the month following the event.

medical insurance

Summary of Medical Insurance Options

You have several health insurance options from which to choose. Your choices include an Indemnity plan, a Preferred Provider Organization (PPO) plan, and a Managed Care Organization (MCO) option.

Health plan choices and costs differ by bargaining unit. Please review the Summary of Health Plan Options on page 9 to find the health options that are available to you.

For full-time employees with single coverage, the State pays the full cost of the monthly premium for all plans other than those in the Voluntary Premium Contribution program.

THINGS TO CONSIDER WHEN CHOOSING A MEDICAL INSURANCE PLAN

- Make sure you choose a plan that serves your area.
- Review the monthly premium amounts on page 17.
- If you are interested in additional information, please see your Personnel Assistant or call Wellmark.
- Make sure all the dependents you list are eligible.
- If you or a member of your family have special medical needs, call Wellmark to ask about coverage for those particular needs.
- If you want to stay with your current doctor, he or she must participate in the plan you choose.
- You can set aside pretax dollars to pay for expenses not covered by your health insurance by enrolling in the Health Flexible Spending Account. See page 30 for further details.

you to understand those differences so that you can select the best available plan for you and your family. The following pages provide an overview of each type of plan.

The plans offered to State of Iowa employees have some basic differences. It's important for

MEDICAL INSURANCE TERMS TO KNOW

Coinsurance The percentage of the covered expenses you must pay.

Copayment (Copay) The amount that you must pay at the time a service is rendered. For example, some plans have a \$10 copayment for each doctor's office visit.

Deductible The amount you pay each year toward your initial covered expenses before the plan begins to pay benefits. Some plans do not have a deductible, or it applies to inpatient services only.

Maximum Allowable Fee The amount that equals the lesser of the covered charge for a service or supply, or an amount that the insurance company establishes annually under its schedule for the same service or supply.

Out-of-Pocket Limit The most you would ever have to pay for covered medical expenses in a year. (These amounts are different for single and family contracts.) Once you reach the out-of-pocket limit, you will not pay for any covered expenses for the rest of the year. In some plans, pharmacy expenses and other copayments are not applied to the out-of-pocket limit.

Pre-Existing Condition Any condition for which you or an eligible dependent has received medical advice, consultation, or treatment within the six months prior to the date you first become eligible for medical benefits under this plan. (This may be offset by proof of other creditable coverage.)

medical insurance

How Program 3 Plus (Classic Blue-Indemnity) Works

AVAILABLE TO AFSCME, AFSCME JUDICIAL,
PPME, AND JUDICIAL NON-CONTRACT

Wellmark Program 3 Plus, an indemnity plan, works this way:

- For office visits, you pay a \$15 office visit copayment once per date of service for the exam only. No coinsurance or deductible follows this copayment. This copayment will not be applied to the out-of-pocket limit.
- The Plan pays 80% of covered charges. You pay the rest (20% coinsurance).
- For inpatient services, you pay for covered expenses until those expenses reach the deductible (\$300 for single contracts or \$400 for family contracts).
- All copayments, coinsurance, and deductibles **except \$15 office visit copayment** are applied to the medical out-of-pocket limit (\$600 single, \$800 family).
- There is a separate \$250 single, \$500 family out-of-pocket limit for prescription drugs. This separate out-of-pocket limit does NOT apply to the medical out-of-pocket limit.
- There are no annual or lifetime maximum benefit limits. However, certain services do have limits; for example, only one physical per year is covered.
- The pre-existing condition waiting period for new employees is 11 months. (This may be offset by proof of prior creditable coverage.)
- You may go to any licensed physician or hospital. Although the majority of health care providers do accept this type of insurance, some health care providers do not participate with Wellmark. If you go to a nonparticipating provider, you could be responsible for paying additional monies out of your pocket, as that provider has not

agreed to Wellmark's payment. Anything above what Wellmark allows is your responsibility.

PRESCRIPTION DRUG BENEFITS

Your prescription drug benefits are provided through a three-tier program. This means that you pay a copayment at the time you receive your prescription until you reach your separate prescription drug out-of-pocket limit. The amount of your copayment is determined by the drug that you receive.

Copayment amounts are:

- \$5.00 for Tier 1
- \$15.00 for Tier 2, and
- \$30.00 for Tier 3

If a generic equivalent is appropriate and available and you choose a brand name drug, you are responsible for the copayment plus any difference between the maximum allowable fees for the generic and brand name drug, even if the provider has specified that the brand name drug must be taken. You will be required to pay this difference even after you have reached your separate prescription out-of-pocket limit.

MAIL ORDER PRESCRIPTION DRUGS

You can save money and have the convenience of home delivery if you use mail order for your maintenance prescription drugs. You can receive up to a 90 day supply for just two copays instead of three by using mail order. Contact Wellmark for the forms and steps to follow to begin ordering through the mail.

VACCINES AT THE PHARMACY

You can go to a pharmacy to receive certain vaccines as part of your pharmacy benefits. For some vaccines, you may need a prescription from your doctor. Check with your pharmacy to determine if a prescription is needed.

Not all pharmacies provide vaccines. Only pharmacists, certified to give vaccines, can offer this service. Wellmark has a list of pharmacies that participate in the vaccine program. Also, the hours that vaccines are available may be different than the normal pharmacy operating hours. If your pharmacy is on the list of participating pharmacies, check with your pharmacy regarding the hours the service is available.

You can also go to your doctor's office to receive a vaccine.

Your cost share will be different depending on where you receive the vaccine. Your health benefit will apply if you receive the vaccine in your doctor's office. If you receive the vaccine at a pharmacy, you will pay the Tier 2 copay.

For more information, go to [IowaBenefits](#).

SELF-ADMINISTERED SPECIALTY DRUGS

Self-Administered Specialty Drugs are high-cost, injectable, infused, oral, or inhaled drugs for the ongoing treatment of a chronic condition. They are covered by your prescription drug plan. You must get these drugs at a pharmacy, through the Caremark Specialty Pharmacy or through Hy-Vee Pharmacy Solutions (HPS). You can contact the customer service number on your Wellmark membership card for more information. You will generally pay a tier 3 copayment for these drugs. If you get a self-administered specialty drug at your doctor's office, you will have to pay for it yourself.

medical insurance

How Deductible 3 Plus (Classic Blue-Indemnity) Works

AVAILABLE TO ALL UE/IUP AND NON-CONTRACT
(NON-JUDICIAL) COVERED EMPLOYEES

Wellmark Deductible 3 Plus, an indemnity plan, works this way:

- You pay an annual deductible of \$300 for single contracts or \$400 for family contracts each plan year. This deductible applies to ALL services before insurance coverage begins.
- The Plan pays 80% of covered charges after the deductible is met for most services. You pay the rest (20% coinsurance). The following services are paid at 100% after the deductible: outpatient surgery, accidents, valid emergency, and dental accident care.
- Any portion of the deductible satisfied in the last three months of the year will be credited for the following year as well.
- All copayments, coinsurance, and deductibles are applied to the out-of-pocket limit.
- Once the deductibles and coinsurance you have paid reach the out-of-pocket limit (\$600 for single or \$800 for family), any remaining covered medical expenses are paid by the Plan at 100%.
- There are no annual or lifetime maximum benefit limits. However, certain services do have limits; for example, only one physical per year is covered.
- The pre-existing condition waiting period for new employees is 11 months. (This may be offset by proof of prior creditable coverage).
- You may go to any licensed physician or hospital. Although the majority of health care providers do accept this type of insurance, some health care providers do not participate with Wellmark. If you elect to utilize a nonparticipating

provider, you could be responsible for paying additional monies out of your pocket, as that provider has not agreed to Wellmark's payment. Anything above what Wellmark allows is your responsibility.

PRESCRIPTION DRUG BENEFITS

Your prescription drug benefits are covered on a "cash and carry basis." This means that you pay the full cost of the prescription and are reimbursed for 80% of Wellmark's allowed amount after you have met your deductible. If you use a participating pharmacist, the pharmacist will file the claim for you, which will result in lower out-of-pocket costs, and a quicker turnaround for reimbursement. If you do not go to a participating pharmacy, you will have to submit a paper claim to Wellmark and will be reimbursed at 80%, after deductible, of what Wellmark would have paid to a participating pharmacy.

VACCINES AT THE PHARMACY

You can go to a pharmacy to receive certain vaccines as part of your pharmacy benefits. For some vaccines, you may need a prescription from your doctor. Check with your pharmacy to determine if a prescription is needed.

Not all pharmacies provide vaccines. Only pharmacists, certified to give vaccines, can offer this service. Wellmark has a [list of pharmacies](#) that participate in the vaccine program. Also, the hours that vaccines are available may be different than the normal pharmacy operating hours. If your pharmacy is on the list of participating pharmacies, check with your pharmacy regarding the hours the service is available.

You can also go to your doctor's office to receive a vaccine.

For more information, go to IowaBenefits.

How Iowa Select (Alliance Select-PPO) Works

Iowa Select, the Wellmark Preferred Provider Organization (PPO), works similarly to Program 3 Plus, with one major difference. Iowa Select contracts with health care service providers (hospitals, doctors, etc.) for reduced fees for each type of service. These savings are passed on to you with lower coinsurance rates (10%) if you use the network providers. You may use out-of-network providers (providers who are not part of the PPO), but you will pay a higher coinsurance rate (20%) and are subject to the deductible.

Other Iowa Select provisions include:

- For office visits, you pay a \$15 office visit copayment once per date of service for the exam only. No coinsurance or deductible follow this copayment. This copayment will not be applied to the out-of-pocket limit.
- An annual deductible (\$250 single; \$500 family) applies to both inpatient and outpatient services.
- The deductible is waived for any services provided in the office or clinic setting of an Iowa Select physician.
- An out-of-pocket limit (\$600 single; \$800 family) applies to services in- and out-of-network and includes deductibles, coinsurance, and copayments, **except the \$15 office visit copayment** and prescription copays or coinsurance. There is a separate out-of-pocket limit (\$250 single; \$500 family) for prescription drugs. This prescription out-of-pocket limit does not apply toward the medical out-of-pocket limit.
- No annual or lifetime maximum benefit limits. However, certain services do have limits; for example, only one physical per year is covered.
- The pre-existing condition waiting period

for new employees is 11 months. (This may be offset by proof of prior creditable coverage.)

- If you use network providers, you do not need to submit claim forms. The provider will do that for you.
- If you do not use network providers, you are responsible for the deductible, 20% coinsurance, plus any amount above Wellmark's allowable amount.

PRESCRIPTION DRUG BENEFITS

Your prescription drug benefits are provided through a three-tier program. This means that you pay a copayment at the time you receive your prescription until you reach your separate prescription drug out-of-pocket limit. The amount of your copayment is determined by the drug that you receive. Copayment amounts are:

- \$5.00 for Tier 1
- \$15.00 for Tier 2, and
- \$30.00 for Tier 3

If a generic equivalent is appropriate and available and you choose a brand name drug, you are responsible for the copayment plus any difference between the maximum allowable fees for the generic and brand name drug, even if the provider has specified that the brand name drug must be taken. You will be required to pay this difference even after you have reached your separate prescription out-of-pocket limit.

MAIL ORDER PRESCRIPTION DRUGS

You can save money and have the convenience of home delivery if you use mail order for your maintenance prescription drugs. You can receive up to a 90 day supply for just two copays instead of three by using mail order. Contact Wellmark for the forms and steps to follow to begin ordering through the mail.

VACCINES AT THE PHARMACY

You can go to a pharmacy to receive certain vaccines as part of your pharmacy benefits. For some vaccines, you may need a prescription from your doctor. Check with your pharmacy to determine if a prescription is needed.

Not all pharmacies provide vaccines. Only pharmacists, certified to give vaccines, can offer this service. Wellmark has a list of pharmacies that participate in the vaccine program. Also, the hours that vaccines are available may be different than the normal pharmacy operating hours. If your pharmacy is on the list of participating pharmacies, check with your pharmacy regarding the hours the service is available.

You can also go to your doctor's office to receive a vaccine.

Your cost share will be different depending on where you receive the vaccine. Your health benefit will apply if you receive the vaccine in your doctor's office. If you receive the vaccine at a pharmacy, your cost share will be equal to the preferred brand name drug cost.

For more information, go to IowaBenefits.

SELF-ADMINISTERED SPECIALTY DRUGS

Self-Administered Specialty Drugs are high-cost, injectable, infused, oral, or inhaled drugs for the ongoing treatment of a chronic condition. They are covered by your prescription drug plan. You must get these drugs at a pharmacy, through the Caremark Specialty Pharmacy or through Hy-Vee Pharmacy Solutions (HPS). You can contact the customer service number on your Wellmark membership card for more information. You will generally pay a tier 3 copayment for these drugs. If you get a self-administered specialty drug at your doctor's office, you will have to pay for it yourself.

medical insurance

How Blue Access and Blue Advantage MCOs Work

Blue Access (Open Access) and Blue Advantage (Primary Care) are Managed Care Organization (MCO) plans. You can choose either plan. Both plans have a state-wide network of providers. However, not all providers are in the Blue Access and Blue Advantage provider networks.

Services are only covered when received from participating providers. It is your responsibility to ensure that you receive services from network providers (doctors, hospitals, labs, clinics, medical equipment providers, chiropractors, etc.) Visit the Wellmark website at <http://wellmark.com> to find participating providers.

Services received from out-of-network providers in the case of accidental injury or emergency may be covered. In addition, if you or your covered family members are going to be out of Iowa for at least a 90 day period of time, Guest Membership is available anywhere in the United States. Contact Wellmark for more information.

OPEN ACCESS MCOS

Open Access MCOs allow you to obtain care from any provider who participates in the MCO's network. No PCP referral is required. Wellmark Blue Access is an open access MCO.

PRIMARY CARE MCOS

Primary Care MCOs provide services that are managed by a primary care physician (PCP). You must select a PCP for each person covered by the plan. Wellmark Blue Advantage requires that your PCP refer you to participating specialists.

OTHER MCO PROVISIONS INCLUDE:

- No required deductibles. However, there are coinsurance and copayments that vary

by service provided.

- There are no annual or lifetime maximum benefit limits. However, certain services do have limits; for example, only one physical per year may be covered.
- Emphasis on preventive services, with 100% coverage for an annual physical, well baby care, screening mammograms, and disease management programs.
- \$10 office visit copayment.
- An out-of-pocket limit of \$750 single, \$1,500 family applies to all services except prescription drug copayments.
- No need to fill out any claim forms.
- No pre-existing condition waiting period for new employees.
- If you receive care from an out-of-network provider, unless it is an emergency, you are responsible for full payment.

PRESCRIPTION DRUG BENEFITS

Your prescription drug benefits are provided through a three-tier program. This means that you pay a copayment at the time you receive your prescription. The amount of your copayment is determined by the drug that you receive. Copayment amounts are:

- \$5.00 for Tier 1
- \$15.00 for Tier 2, and
- \$30.00 or 25% (whichever is higher) for Tier 3

The prescription must be for a covered service and from a participating plan pharmacy. No ancillary charges may be assessed.

Prescription copayments do not apply to the out-of-pocket maximum.

MAIL ORDER PRESCRIPTION DRUGS

You can save money and have the convenience of home delivery if you use mail order for your maintenance prescription drugs. You can receive up to a 90 day supply for just two copays instead of three by using mail order. Contact Wellmark for the forms and steps to follow to

begin ordering through the mail.

VACCINES AT THE PHARMACY

You can go to a pharmacy to receive certain vaccines as part of your pharmacy benefits. For some vaccines, you may need a prescription from your doctor. Check with your pharmacy to determine if a prescription is needed.

Not all pharmacies provide vaccines. Only pharmacists, certified to give vaccines, can offer this service. Wellmark has a list of pharmacies that participate in the vaccine program. Also, the hours that vaccines are available may be different than the normal pharmacy operating hours. If your pharmacy is on the list of participating pharmacies, check with your pharmacy regarding the hours the service is available. You can still go to your doctor's office to receive a vaccine.

You can also go to your doctor's office to receive a vaccine. Your cost share will be different depending on where you receive the vaccine. Your health benefit will apply if you receive the vaccine in your doctor's office. If you receive the vaccine at a pharmacy, your cost share will be equal to the preferred brand name drug cost.

SELF-ADMINISTERED SPECIALTY DRUGS

Self-Administered Specialty Drugs are high-cost, injectable, infused, oral, or inhaled drugs for the ongoing treatment of a chronic condition. They are covered by your prescription drug plan. You must get these drugs at a pharmacy, from the Caremark Specialty Pharmacy or from Hy-Vee Pharmacy Solutions (HPS). You can contact the customer service number on your Wellmark membership card for more information. You will generally pay a tier 3 copayment for these drugs. If you get a self-administered specialty drug at your doctor's office, you will have to pay for it yourself.

Medical Care Management Features

All of the medical plans have built in features that are meant to coordinate and manage your medical care. Blue Access, for example, has a PCP who is assigned the task of managing your total medical care. All of the plans have some features that help manage your medical care so that you receive the care you need in a cost-effective manner. Some of these features include:

PREAPPROVAL OF HOSPITAL ADMISSIONS

Some plans require preapproval of your hospital admission before you go to the hospital. Of course, in an emergency, get help first and then call the plan to let them know about your hospitalization.

SECOND SURGICAL OPINIONS

In most cases, getting a second surgical opinion is voluntary. In some cases it is required. The charges for a second surgical opinion are paid according to the normal plan benefits.

LARGE CASE MANAGEMENT

In cases that require a multitude of services for a longer period of time, alternative care may be recommended.

DISEASE MANAGEMENT

If you have a chronic health condition, you may want to participate in programs offered by our health plans that are designed to help you take a more active role in managing your condition. These programs offer early detection, patient education, suggested lifestyle changes, and other support and resources for living as healthy as possible with a chronic disease.

You can call 1-800-724-9122 to speak to a Personal Health Assistant 24 hours a day, 365 days a year.

dental insurance

Dental Insurance

(Dental references exclude the State Police Officers Council)

DENTAL PROVISIONS

The dental plan pays up to \$1,500 of covered expenses per person per year, as follows:

- 100% for routine check-ups and cleanings twice in a benefit period;
- 80% for routine restorative services, such as fillings;
- 50% for non-surgical and surgical periodontal treatments, root canals, and crowns (must have prior approval);
- 50% for bridges and dentures (prosthetics); and
- 50% for dependent orthodontia (unmarried dependent children under 19 only); no deductible; up to \$1,500 per eligible dependent in a lifetime.

THINGS TO CONSIDER

- You can only enroll during the first 30 days of your employment.
- Dependents can only be added during your initial enrollment or as a result of a qualifying event such as marriage, birth, or adoption, or during an open dental enrollment
- Only those dependents directly affected by the event may be added. See the following list of qualifying events.
- Dependents eligible for family coverage are:
 - Your spouse
 - Your domestic partner
 - Your married or unmarried children under age 27, whether or not they live in Iowa
 - Your unmarried children who were totally and permanently disabled prior to age 27
 - Your unmarried children over age 26 that are full-time students. There will be tax consequences to you if these dependents do not qualify as your tax dependent. See

your Personnel Assistant for more details. You may also want to contact your tax advisor.

- You can set aside pretax dollars to pay for expenses not covered by your dental insurance by enrolling in the Health Flexible Spending Account. See page 30 for further details.

QUALIFYING EVENTS FOR MAKING CHANGES TO DENTAL INSURANCE

You can only make changes to your dental enrollment if you are already enrolled in the plan. In order to change your dental plan enrollment you must have one of the following qualifying events. If you are not currently enrolled in the dental plan, these events will not allow you to join the plan.

- Marriage
- Death of a spouse or dependent
- Adoption of a child, or addition of a step or foster child
- Employee or spouse reaches age 65
- Employee, spouse, or dependent becomes eligible for Medicare
- Divorce, annulment, legal separation, or dissolution of a marriage
- Dependent no longer eligible (Over age 26, full-time student over age 26 and marries or graduates
- Dependent over age 26 resumes full-time student status
- Spouse loses coverage through another employer due to involuntary loss of employment (lay-off, discharge, business closing). (Proof of loss shall be the "Involuntary Loss of Coverage Statement" signed and dated by the previous employer.)
- Birth of a biological child: If moving from single to family, the effective date of the family contract will be the first day of the month in which the child is born. Family premiums will begin with this effective date. If a single contract holder does not submit the application or enroll via IowaBenefits

dental insurance

for family coverage within 60 days of the birth, there is no further opportunity to add the newborn until the next open dental enrollment period or a qualified life event that affects coverage for this family member.

A dental enrollment/change form or enrollment through IowaBenefits is always required when adding a newborn.

The effective date for coverage at the time of the time of an event is generally the first of the month following the event.

For more information, call Delta Dental Plan of Iowa at 1-800-544-0718

This is a general description of coverage. It is not a statement of your contract. Actual coverage is subject to terms and conditions specified in the benefit certificate itself and enrollment regulations in force when the benefit certificate becomes effective. Certain exclusions and limitations apply.

life insurance

Life Insurance Overview

The State of Iowa's basic (employer-paid) and supplemental (employee-paid) group life insurance is term life, meaning there is no cash value associated with the policy. Group term life insurance is provided under a contract with The Hartford.

You are automatically enrolled for basic coverage when you satisfy all eligibility requirements as defined in the group life booklet. Your life insurance coverage is generally effective the first of the month following 30 days of continuous employment.

Basic and supplemental life insurance coverage amounts begin to decrease starting at age 65. Additional information about basic and supplemental life insurance is provided in the following sections and in the life insurance booklet certificate, which is available at www.benefits.iowa.gov.

Basic Life Insurance

If you work 30 or more hours a week and are under the age of 65, the State provides you with \$20,000 of group term life coverage at no cost to you. Coverage begins to decrease starting at age 65. This is your basic life insurance coverage.

Supplemental Life Insurance

You can obtain additional life insurance coverage by purchasing supplemental life insurance coverage. You can purchase additional life insurance in \$5,000 increments to a maximum of \$100,000 (\$30,000 for State Police Officers' Council employees; \$40,000 for UE/IUP employees).

You can obtain any amount of supplemental life insurance coverage available to your bargaining class without providing evidence of insurability if you enroll within the first 30 days of employment. If you do not enroll for supplemental life insurance within 30 days of employment, you cannot apply for supplemental life coverage until the next annual enrollment and change period, unless you have a qualified life event. In either case, you will have to provide evidence of insurability to The Hartford and be approved for coverage by The Hartford before any increases become effective.

LIFE INSURANCE PREMIUMS

The State pays the entire premium for your basic life insurance coverage. You can purchase supplemental (additional) life insurance through payroll deduction. See your Personnel Assistant for premium information.

How to Enroll in Supplemental Life Insurance

You enroll for supplemental life insurance through IowaBenefits. See your Personnel Assistant for more information.

THINGS TO CONSIDER (ABOUT HOW MUCH INSURANCE TO PURCHASE)

If you're trying to determine how much insurance to purchase, remember that this benefit is meant to help those who would suffer financially if you weren't there to help pay the bills. Here are a few factors to consider:

- Mortgage, debts, food, clothes, and utility bills (the portion of these that are paid from your salary)
- Housekeeping bills (if you contribute to the running of the household by performing household tasks or running errands)
- Extra childcare expenses (to give your

spouse some time off)

- Savings for children's education
- The cost of a funeral

Life Insurance Beneficiary

Please be sure your beneficiary information is current. You can change your beneficiary designation in IowaBenefits at any time, and as often as you like. Changes are effective immediately.

Accidental Death and Dismemberment

An amount equivalent to your basic and supplemental life coverage is provided for accidental death and a percentage of your basic and supplemental life coverage is provided for accidental dismemberment. Certain exclusions apply; consult your booklet certificate.

SEAT BELT BENEFIT

If an accidental death occurs while an employee is wearing a seat belt in the prescribed manner, the plan pays an additional benefit of 10 percent of the employee's coverage amount, up to \$10,000.

AIR BAG BENEFIT

If an accidental death occurs while an employee is riding in an automobile seat equipped with an airbag system and wearing a seat belt, the plan pays an additional benefit of 10 percent of the employee's coverage amount, up to \$10,000.

Living Benefit Option

If you are diagnosed with a terminal illness and have a life expectancy of 12 months or less, you may be able to have up to 80 percent of your

life insurance benefits paid to you while you are still living. Proceeds can be paid in a lump sum or in monthly installments.

To Make Changes

TO MAKE CHANGES DURING THE ENROLLMENT AND CHANGE PERIOD

During the enrollment and change period, you can decrease, or apply to increase, the amount of your supplemental term life insurance coverage.

TO DECREASE COVERAGE

If you want to **decrease** the amount of your **supplemental life insurance** coverage, enter your change in IowaBenefits. Decreases will be effective on January 1 of the new plan year.

TO INCREASE COVERAGE

To apply to **increase** the amount of your **supplemental term life insurance**:

- Indicate the amount of coverage you are applying for in IowaBenefits.
- Complete a Personal Health Application and send it to The Hartford.

Any increases to your coverage must be approved by The Hartford before they can become effective. If approved, the increase will be effective on January 1 of the new plan year.

Once the enrollment and change period ends, you will not be able to make any changes to the amount of your supplemental term life insurance coverage until the next enrollment and change period unless you have a qualified life event during the year.

life insurance

TO MAKE CHANGES OUTSIDE THE ENROLLMENT AND CHANGE PERIOD

INCREASING COVERAGE

After your first 30 days of employment, you can only add coverage if you have a qualified life event. Any increase to coverage requires that you provide evidence of insurability to The Hartford and be approved for the coverage by The Hartford. Contact your Personnel Assistant for more information.

DECREASING COVERAGE

You can only decrease your life insurance coverage if you have a qualified life event. If you decrease your coverage, you will not be able to increase your coverage until the next annual enrollment and change period unless you have a new qualified life event.

Imputed Income

If your total group life insurance coverage (basic and supplemental) is over \$50,000 and you pay for supplemental life insurance on a pretax basis, you will have imputed income reported to the IRS. The value (determined by a cost table from the IRS) of the life insurance over \$50,000 will be reported as imputed income and may be subject to taxes. The monthly value increases with age from \$.05 per \$1,000 of insurance for those under age 25 to \$2.06 per \$1,000 for those ages 70 and over.

Because your monthly premium for group term life insurance coverage is deducted from your pay on a pre-tax basis, IRS considers it to be “employer provided.” The IRS requires you to be taxed on the value of employer-provided group term life insurance coverage over \$50,000. The taxable value of employer-provided term life insurance is referred to as imputed income. Even though you do not

receive cash, you are taxed as if you received cash in an amount equal to the taxable value of the coverage in excess of \$50,000. Imputed income is automatically calculated for you and added to your paycheck.

Life insurance premiums are calculated based on your age at the beginning of the month. Imputed income is calculated based on your age as of December 31 of the current calendar year. Imputed income is assessed by the number of \$1,000 increments of coverage that are over \$50,000. The IRS determines imputed income rates. Imputed income rates by age and the amount of group term life insurance coverage are provided in the following table.

As an example, an individual who is 42 years old with \$100,000 of supplemental coverage would pay a monthly premium of \$10.50. The employee would be assessed imputed income of \$7.00 per month.

MONTHLY IMPUTED INCOME Calculated Using Employee's Age as of December 31, 2013											
Total Coverage (Basic & Supplemental)	Under 25	25-29	30-34	35-39	40-44	45-49	50-54	55-59	60-64	65-69	70 & Over

long term disability insurance

Long Term Disability (LTD)

Insurance Overview

(Employees working 30 or more hours per week)

The State provides Long Term Disability (LTD) coverage to all eligible full-time employees. If you have a disability that prevents you from performing those tasks required by your regular occupation, the LTD plan will cover 60 percent of up to \$60,000 of your annual pre-disability earnings.

The Hartford underwrites the State's LTD plan. Additional information about the LTD plan is provided in the following sections. Detailed plan information is provided in the LTD booklet certificate, which is available at www.benefits.iowa.gov.

LTD INSURANCE PREMIUMS

The State pays the entire premium for your LTD coverage. There is no option to purchase additional coverage. If you need to insure the remainder of your salary, you should investigate buying additional LTD coverage through your insurance agent or insurance company.

Please note that LTD benefits payable through other group plans will reduce your State of Iowa group LTD benefit payment.

ENROLLING FOR COVERAGE

You are automatically enrolled in the LTD plan when you satisfy all eligibility requirements as defined in the group LTD booklet. Your LTD coverage is generally effective the first of the month following 30 days of continuous employment.

GENERAL ASSEMBLY EMPLOYEES

If you are a part-time employee of the General Assembly you must pay for LTD insurance coverage. See your Personnel Assistant for more information.

LTD INSURANCE CARRIER

Group LTD insurance is provided by The Hartford.

LONG TERM DISABILITY BENEFITS

If you are approved for LTD benefits, they will begin on the first day following the "elimination period." The elimination period begins on the first day you meet the plan's definition of disabled and continues through the later of 90 working days or the exhaustion of sick leave. Benefits will be paid if a disability prevents you from performing your regular occupation. An evaluation to determine continuation of benefits will occur 12 months from your last day at work. To continue to receive benefits after the initial 12 months, you must have a disability that prevents you from performing any gainful occupation or work for which you are or could become qualified for by training, education, or experience. Mental health and substance abuse disabilities are limited to 12 months. If you are approved for LTD, you may not receive donated leave.

Pre-existing conditions are not covered if the disability begins within 12 months of the date the coverage begins. A pre-existing condition is one for which you received medical treatment, consultation, care or services including diagnostic measure, took prescribed drugs or medicines, or followed treatment recommendations, or had symptoms for which an ordinarily prudent person would have consulted a health care provider in the 12 months just prior to your effective date of coverage. The LTD plan insures 60 percent of up to \$60,000 of your annual salary. If you are approved for LTD, your benefits are calculated based on your pre-disability earnings (up to \$60,000). The maximum monthly benefit is \$3,000.

long term disability insurance

REHABILITATION REQUIREMENT

If The Hartford has come up with a rehabilitation plan for you which was approved by your doctor and you choose not to follow it, your benefits will end.

RETURN TO WORK INCENTIVE

If you participate in a rehabilitation program offered by The Hartford, you may be able to receive additional benefits. See the LTD booklet certificate for more information about rehabilitation and return to work benefits.

SURVIVOR BENEFIT

When The Hartford receives proof that you have died, they will pay your eligible survivor (spouse, if living, otherwise, your children under age 25) a lump sum benefit equal to three months of your gross disability payment if, on the date of your death:

- your disability had continued for 180 or more consecutive days; and
- you were receiving or were entitled to receive payments under the plan.

If you have no eligible survivors, payment will be made to your estate. The Hartford will first apply the survivor benefit to any overpayment that may exist on your claim.

CONTINUATION OF LIFE INSURANCE

If you are approved for LTD before you reach the age of 60, your basic and supplemental life insurance continues, and your insurance premiums are waived. Supplemental Life Insurance premium payments must continue during the qualifying period for LTD.

If you are over the age of 60 when you become disabled, you have up to 31 days from the date you cease active work to apply to continue life insurance coverage by either porting or converting the coverage.

RETURN TO WORK

If you are receiving LTD payments and return to any employment, whether it is with the State or not, you must contact The Hartford immediately to determine what impact your employment may have on your long term disability benefits.

WHEN BENEFITS END

If you are approved to receive LTD benefits, they will continue until the earlier of:

- the date you reach normal retirement age (unless age 61 or over on date of disability)
- the date your disability ends, or
- your failure to participate in a rehabilitation program, or
- the date you reach the maximum duration of benefits based on your age at the time your disability began.

Other terms and conditions may apply; consult the LTD booklet certificate.

long term disability insurance

THINGS TO CONSIDER ABOUT THE LTD PLAN

The maximum LTD benefit is \$3,000 per month (60% of up to \$5,000 of monthly salary; \$60,000 of annual salary is insured).

Long term disability payments are reduced by any other income benefits such as benefits received from Workers' Compensation or Social Security Disability Income.

If you earn more than \$60,000 per year, you may want to insure the remainder of your salary. You can investigate buying additional LTD coverage through your insurance agent or insurance company.

The LTD plan does not cover any disabilities caused by:

- intentionally self-inflicted injuries
- active participation in a riot
- commission of a crime for which you have been convicted under state or federal law
- war, whether declared or undeclared

The plan also will not pay benefits during any period in which you are incarcerated as a result of a conviction.

For more information about your coverage, please see your State of Iowa Group Long Term Disability booklet, ask your Personnel Assistant, visit the IowaBenefits site, or call The Hartford at 1-800-752-9713.

LTD TERMS TO KNOW

Disabled You are disabled when The Hartford determines that:

- you are unable to perform the material and substantial duties of your regular occupation due to your sickness or injury; and
- you have a 20 percent or more loss in your indexed monthly earnings due to that sickness or injury.

After 12 months of benefits, you are disabled when The Hartford determines that due to the same sickness or injury, you are unable to perform the duties of any gainful occupation for which you are reasonably fitted by education, training or experience.

Elimination Period The latter of the first 90 working days of any single period of Total Disability, or the date that the employee has exhausted all sick leave.

flexible spending accounts

WHAT ARE THEY?

Many employees pay for health and dependent care expenses on a regular basis. Did you know that the State of Iowa provides a way for you to save money on these expenses? Flexible Spending Accounts (FSAs) let you pay for certain health (through the Health FSA) and dependent care expenses (through the Dependent Care FSA) with tax-free dollars. This benefit saves you money by reducing your taxable income and increasing your spendable income. You contribute to one or both of the State's FSA accounts with pretax dollars and then are reimbursed for qualifying expenses for you and your family. Pretax dollars are not subject to state, federal, or FICA taxes.

The amount you designate for the year is divided into 24 equal amounts and held in your flexible spending account(s). When you submit receipts for eligible expenses, you draw your pretax money out of your FSA. You can choose to have payments mailed to you or deposited directly into your checking or savings account.

More information about this program is available on our website at: <http://das.hre.iowa.gov/fsa/home.html> or from Application Software, Inc. (ASI), the State's third party administrator. ASI can be reached at 1-800-659-3035 or www.asiflex.com.

How to Enroll

You may enroll within 30 days of hire, 30 days of a life event, or during the annual enrollment and change period. You must make a new election every year. Enrollment is through IowaBenefits, an online web-based system. To enroll, once in IowaBenefits, select the My Benefits tab and select Flexible Spending Offer. You may enroll in health FSA, dependent care FSA, or both in this system. If you wish to have your funds directly deposited into your bank account, please have your account

and routing numbers available when you enroll. The IowaBenefits website is a secure website.

Coverage for new hires and those with life events begins the month after you enroll. You may not submit claims for expenses incurred prior to your first month of coverage.

When deciding how much to contribute to your account, estimate your expenses carefully. Once you enroll, you:

- will forfeit (use it or lose it) any unused account balance
- cannot change your contribution amount during the year unless you have a qualified employment or status change, such as marriage or divorce
- cannot be reimbursed through the Dependent Care FSA and claim a dependent care tax credit for the same expense
- cannot be reimbursed for a particular expense through the Health FSA and through any group or individual insurance
- cannot be reimbursed through the Health FSA and claim the same expense as a tax deduction
- cannot move funds from one FSA to the other

How to Make Changes

In some situations, you may be able to change your FSA contribution levels. If you want to make a change, keep in mind that you must have a qualifying life event (see the Summary Plan Description for a list of events) and that **any change in election must be submitted electronically in the online enrollment system, IowaBenefits, within 30 days of the event.**

If the change is approved by ASI, your change will become effective on the first day of the month following the submittal of the change.

flexible spending accounts

Any increase in your election can include only those expenses that you expect to incur during the period of coverage subsequent to the effective date of the increase.

Childbirth and adoption bear special mention. You have 30 days from the birth or adoption of a child to enroll in or increase your Health FSA. If you have missed work due to the birth or adoption of a child, you have 30 days from return to work to enroll in or increase your Dependent Care FSA.

HOW TO FILE A CLAIM

You may submit claims with appropriate documentation as follows:

- FAX to 877-879-9038;
- Log onto your ASI account and submit a PDF; or
- Mail to ASI, PO Box 6044, Columbia, MO 65205-6044

WHEN CAN I INCUR EXPENSES?

Participants may incur claims through March 15 after the plan year. For example, a participant may buy eye glasses on March 1, 2014 and be reimbursed out of funds contributed in 2013.

Any reimbursement for claims with service dates of January 1, 2014 to March 15, 2014 will be applied to 2013 available funds, if any, with the remainder applied to 2014 funds.

All claims must be postmarked by April 15 each year, or by the next business day if April 15 falls on a weekend. Any funds not claimed timely will be forfeited.

flexible spending accounts

Health Flexible Spending Accounts

HOW DOES IT WORK?

When you incur an eligible medical expense, submit to ASI a completed claim form with appropriate documentation. You will receive payment from ASI by check or direct deposit, depending upon your election when you enroll. A medical expense is incurred when the services are provided that create the expense, not when you are billed for or pay for the service. You must receive the medical services before you file a claim for those services. You pay the medical bill directly, either at the time of service or later.

HOW MUCH CAN I CONTRIBUTE?

The maximum you are allowed to contribute to the Health FSA is \$2,500 a year. This maximum is set by federal law and applies to each participant, regardless of marital status. If both spouses are eligible to participate, each spouse may elect up to \$2,500. You cannot claim the same expense on both participants' plans.

WHAT IS AN ELIGIBLE EXPENSE?

You may submit expenses for yourself, your spouse, and your eligible dependents. An eligible dependent is defined by the Internal Revenue Service as a "qualifying child" or a "qualifying relative." A "qualifying child" is a son, daughter, adopted child, stepchild, or eligible foster child who will be age 26 or younger by December 31, 2013. For more information, see Internal Revenue Code section 152 or visit ASI's website at <http://www.asiflex.com/faq/qualifying-dependent.htm>.

Under certain circumstances, non-custodial parents may be eligible to submit claims for their dependents. Please contact ASI at 1-800-659-3035 for more information.

Some examples of items that may be eligible

for reimbursement under the Health FSA if they are not covered by insurance are:

- Medical copayments and deductibles
- Prescription drug copayments
- Dental charges in excess of insurance coverage
- Eye glasses and contact lenses
- Hearing aids
- Medically necessary weight loss programs as prescribed by a physician (health club dues and special foods do not qualify)

A complete list of eligible expenses is available in Internal Revenue Service Publication 502. However, insurance premiums and long term care expenses are not eligible even though they are mentioned in IRS Publication 502.

Expenses must be incurred during your period of coverage. The following are not eligible expenses:

- Products advertised, marketed, or offered as long-term care insurance
- Medical savings accounts under Section 106 (b)
- Over-the-counter medicine, unless prescribed in writing by a doctor

WHAT HAPPENS WHEN I LEAVE STATE EMPLOYMENT?

If you leave State employment and are enrolled in the Health FSA, coverage continues through the end of the month in which you make your last payroll deduction. You may incur new claims through this date and file claims through April 15 of the following year.

If you retire, you may prepay contributions for the remainder of the year with your final paycheck. To do so, complete the Prepayment Form located at http://das.hre.iowa.gov/fsa/forms_documents.html. Your coverage will continue for the remainder of the year.

If you leave employment without retiring, you may be able to continue participating in the

flexible spending accounts

Health FSA if you meet certain requirements. Continuation of coverage will be provided if, on the date of the qualifying event, your remaining benefits for the current plan year are greater than your remaining program contribution payments.

Your right to elect to continue coverage ends 60 days from the date on the continuation notice provided by the third party administrator. If continuation is elected, the remaining program contributions will be charged to you, your spouse, or dependent, as the case may be, for any period of continuation coverage at 102 percent of the cost of providing coverage for the period to similarly situated participants, spouses, or dependents.

Continuation will only be extended to the end of the current plan year but may terminate sooner if the premiums described above are not paid within 30 days of the due date.

If you meet the eligibility criteria for continued participation in the Health FSA, you will be notified by ASI. If you elect to continue participation, you must pay your contributions plus a 2 percent administration fee.

Dependent Care Flexible Spending Accounts

HOW DOES IT WORK?

When you incur an eligible expense, submit to ASI a completed claim form with appropriate documentation. You will receive payment from ASI by check or direct deposit, depending upon the payment election you make when you enroll. A dependent care expense is incurred when the services are provided that create the expense, not when you are billed for or pay for the service. You will only receive reimbursement for the amount that you have contributed through payroll deduction.

HOW MUCH CAN I CONTRIBUTE?

Dependent Care FSA maximum contribution amounts depend on whether you are single or married and on your tax filing status. You cannot contribute more than your or your spouse's earned income. The maximum contribution amounts are:

- \$5,000 if you are single, or married and file a joint return
- \$2,500 if you are married and file separate returns
- \$5,000 combined maximum if your spouse also contributes to a dependent care account
- \$3,000 if your spouse is a full-time student and you have one dependent
- \$5,000 if your spouse is a full-time student and you have more than one dependent

ELIGIBILITY CRITERIA

Each year, you can set aside pretax dollars to cover expenses for dependents if:

- They are under age 13; or
- They are mentally or physically incapable of self-care and reside in your home at least eight hours a day, regardless of age; and
- You claim them as dependents for federal income tax purposes.

If you are married, to be eligible your spouse must either:

- Be a full-time student;
- Work; or
- Be incapable of self-care.

In addition:

- Expenses must be for care that enables both spouses to work; and
- If your spouse works, his or her income must be greater than the reimbursement of dependent care expenses.

You are not eligible for dependent care participation during periods in which you are

flexible spending accounts

not at work. If you are on leave, including workers' compensation or maternity leave, you are not eligible to participate and cannot receive reimbursement for expenses incurred during your leave period.

WHAT IS AN ELIGIBLE EXPENSE?

Eligible expenses include:

- In-home day care
- Day care at someone's house
- Nursery school
- Adult day care (dependent must live in home for at least eight hours a day)
- Boarding school (the portion of the cost used for care of the dependent under age 13)
- Dependent care centers (that comply with state and local laws and licensing requirements)
- Household services (if the dependent is being cared for in the home and the household services are necessary for the dependent's care)
- Preschool
- Summer day camp (if the child does not stay overnight), but not instructional camps

The following are not eligible expenses under the Internal Revenue Code:

- qualified scholarships under section 117
- educational assistance programs under section 127
- fringe benefits under section 132
- transportation expenses

WHAT HAPPENS WHEN I LEAVE STATE EMPLOYMENT?

If you terminate employment, you may continue to file claims for qualifying expenses incurred during the calendar year until you have been reimbursed the balance in your account. Qualifying expenses include those incurred while you are employed by another employer or are actively looking for work.

You cannot participate in the Dependent Care FSA and be eligible for the dependent care tax credit. Before enrolling in the Dependent Care FSA, you should consult your tax advisor to see if it may be advantageous to take the dependent care tax credit.

deferred compensation program

Program Basics

EXPLANATION OF BENEFIT

The Retirement Investors' Club (RIC) deferred compensation program is a voluntary retirement savings benefit designed to automatically increase your personal long-term savings through payroll deductions. Your contributions are invested in your selection of RIC investments with the option to change deduction amounts and investment options as needed. RIC contains three plans: the 457 (pre and post-tax) Employee Contribution Plan, the 401(a) Employer Match Plan and the 403(b) (pre and post-tax) Plan.

- **Pre-tax contributions** are made prior to federal and state income tax withholding, which lowers your income taxes in the year you contribute. Distributions are taxable at your ordinary income rate.
- **Post-tax Roth contributions** are made after federal and state income tax withholding. Qualified distributions are tax-free (see DISTRIBUTIONS).

For more information about the 403(b) plan, available to Department of Education employees only, visit <http://ric.iowa.gov/403b/>. The following information is specific to the 457 and 401(a) plans. You are fully vested in all plans from day one. For more detailed information, visit our website site at <http://ric.iowa.gov>.

ELIGIBILITY

You are eligible to contribute if you are a permanent or probationary employee of the State of Iowa working 20 or more hours per week or an employee who has a fixed annual salary. This program is not offered to Board of Regents Institution employees.

ENROLLMENT

The first step to enrollment is choosing your investment provider. Your provider has all the investment information and forms you need to open your account and begin payroll deductions. You may access provider and product information online and by calling one of the following numbers. The approved providers are:

Hartford Life

800-528-9009

<https://retire.hartfordlife.com/iowa401-457/>

Horace Mann

877-602-1861

<https://www.horacemann.com/iowa/>

ING Financial Advisers

<http://enroll.tiaa-cref.org/iowa/>

VALIC

800-945-6763

www.valic.com/iowa

CONTRIBUTIONS

You may choose to contribute as little as \$25/month (\$12.50 per pay period) or as much as the IRS annual maximum limit of \$17,500 (regular limit), \$23,000 (50+ Catch-Up), or \$35,000 (3-Year Catch-Up) per year. You choose the frequency of your deductions to be 12, 24 or 26 times per year. Please Note: The total of all contributions (pre and post-tax) made

deferred compensation program

to this 457 plan and/or any other government employer's eligible 457 plan must not exceed the IRS annual maximum limits.

RIC participants may choose to contribute two ways: pre-tax and post-tax. You should consult with your financial representative or tax advisor if you have questions on which contribution type is best for you. Pre-tax contributions are made prior to federal and state income tax withholding, which lowers your income taxes in the year you contribute. This is the traditional way of saving for retirement.

As of 2012, RIC participants may also save on a post-tax basis through Roth contributions, which are deducted from wages after federal and state income tax withholding. The benefit of saving on a post-tax basis is tax-free income in retirement, if you take a qualified distribution.

RIC participants may make both pre-tax and Roth contributions at the same time. Participants determine how much to contribute under each tax option, up to the maximum contribution limit set by the IRS annually. The maximum limit is a combined limit for both pre-tax and Roth contributions. When added together, total contributions for both tax types cannot exceed the federal limits.

Before you retire, consider the option of deferring your unused vacation pay and sick pay (up to \$2,000) to your deferred compensation account.

ROLL-INS

You may elect to roll in assets from:

- Your previous government employer's 457 plan into your RIC 457 account
- Your existing 401(k), 401(a), 403(b), 403(a), IRA (traditional or rollover), or SEP into your RIC 401(a) account
- Your previous government employer's 457

Roth plan to your Roth 457 account (you are not able to roll Roth IRA assets into RIC

Roll-in assets are free of restrictions for distribution (taxable distribution subject to IRS early withdrawal penalty).

EMPLOYER MATCH

The State offers a match to participants' 457 plan contributions. The funds are deposited to your 401(a) account. The State matches \$1 for every \$1 you contribute to the 457 plan, up to the monthly maximum match amount of \$75. The match for SPOC employees is \$1 for every \$2 the employee contributes up to the match maximum of \$75/month. Match contributions do not reduce your maximum 457 contribution limit.

INVESTMENT OPTIONS

Each active provider (Hartford Life, Horace Mann, ING Financial Advisers, Security Benefit, TIAA-CREF, and VALIC) offers many investment options ranging from conservative to aggressive. You have the option of choosing one or several investments including fixed rate accounts, mutual funds and variable annuities. Your investment selection should be based on your goals for your retirement savings, your risk tolerance, and the length of time you have to invest. These active providers offer you the option of changing your investment selections at any time.

DISTRIBUTIONS

Once you terminate from employment, you are eligible to take distributions from your RIC accounts. You do not have the option to receive a distribution from your RIC 457 accounts while you are employed except in the case of an approved Unforeseeable Emergency, Cash Out, or an IPERS service credit purchase. Unforeseeable Emergency withdrawals are only approved in rare circumstances, such as a significant loss of income or unexpected

deferred compensation program

medical expenses that are not covered by insurance, natural disasters, etc. RIC does not have a loan provision.

Roth assets: Tax-free (qualified) distributions of Roth assets must meet **all** of the following criteria:

1. The participant has a distributable event (termination of employment, death, disability, or service purchase);
2. The participant must be age 59½ or older; **and**
3. The account must have been held for at least five years.

If you take a distribution of Roth assets prior to meeting all of the three conditions above, you may be taxed on all or a portion of your investment earnings.

If you are invested with one of the following providers, you do not need to contact the Department of Administrative Services. You may request a distribution directly from your active provider at the numbers listed.

AXA Equitable	877-800-7279 option 3 or (515) 225-1141 in Des Moines
Hartford Life	800-528-9009
Horace Mann	877-602-1861
ING Financial Advisers	800-555-1970 or (515) 698-7973 in Des Moines
Nationwide Retirement Solutions	877-677-3678
Security Benefit	1-800-888-2461
TIAA-CREF	1-888-877-1446
VALIC	1-800-945-6763 or (515) 267-1099 in Des Moines

If you are invested with any provider other

than those listed, please complete the *RIC Distribution Form* and call your provider to confirm whether or not you are also required to complete a provider distribution form.

OPTIONS AT RETIREMENT

Before you retire, consider the option of deferring your unused vacation pay and sick pay to your RIC account.

1. **Leave your assets fully invested** in RIC. Participants are required to begin distributions at age 70½, at which time you must begin taking at least the IRS required minimum amount annually. If you leave your assets in RIC, you have the option of changing your investment selections and/or provider at any time (some product restrictions may apply). Your 457 Employee Contribution Account is not subject to a 10 percent early withdrawal penalty by the IRS. 401(a) assets are subject to a possible 10 percent penalty by the IRS prior to age 59½.

2. **Take income** in one of the following ways (some product restrictions may apply).

- Total lump sum distribution
- Partial lump sum distributions
- Systematic/periodic payments
- Lifetime payments

For tax information on distributions, see the Special Tax Notice attached to your distribution form. Be sure to check with your provider for possible surrender charges.

3. **Roll over** all or a portion of your assets to a 457, 401(k), 401(a), 403(b), 403(a), IRA (traditional or rollover), or SEP. If eligible, you may purchase IPERS service credit with your funds. This is a non-taxable event. Once you roll your 457 employee contribution assets to a qualified plan or IRA, you may be subject to a 10 percent penalty by the IRS if you take distribution from the new plan before age 59½.

deferred compensation program

to this 457 plan and/or any other government employer's eligible 457 plan must not exceed the IRS annual maximum limits.

RIC participants may choose to contribute two ways: pre-tax and post-tax. You should consult with your financial representative or tax advisor if you have questions on which contribution type is best for you. Pre-tax contributions are made prior to federal and state income tax withholding, which lowers your income taxes in the year you contribute. This is the traditional way of saving for retirement.

As of 2012, RIC participants may also save on a post-tax basis through Roth contributions, which are deducted from wages after federal and state income tax withholding. The benefit of saving on a post-tax basis is tax-free income in retirement, if you take a qualified distribution.

RIC participants may make both pre-tax and Roth contributions at the same time. Participants determine how much to contribute under each tax option, up to the maximum contribution limit set by the IRS annually. The maximum limit is a combined limit for both pre-tax and Roth contributions. When added together, total contributions for both tax types cannot exceed the federal limits.

Before you retire, consider the option of deferring your unused vacation pay and sick pay (up to \$2,000) to your deferred compensation account.

ROLL-INS

You may elect to roll in assets from:

- Your previous government employer's 457 plan into your RIC 457 account
- Your existing 401(k), 401(a), 403(b), 403(a), IRA (traditional or rollover), or SEP into your RIC 401(a) account
- Your previous government employer's 457 Roth plan to your Roth 457 account (you are

not able to roll Roth IRA assets into RIC

Roll-in assets are free of restrictions for distribution (taxable distribution subject to IRS early withdrawal penalty).

EMPLOYER MATCH

The State offers a match to participants' 457 plan contributions. The funds are deposited to your 401(a) account. The State matches \$1 for every \$1 you contribute to the 457 plan, up to the monthly maximum match amount of \$75. The match for SPOC employees is \$1 for every \$2 the employee contributes up to the match maximum of \$75/month. Match contributions do not reduce your maximum 457 contribution limit.

INVESTMENT OPTIONS

Each active provider (Hartford Life, Horace Mann, ING Financial Advisers, Security Benefit, TIAA-CREF, and VALIC) offers many investment options ranging from conservative to aggressive. You have the option of choosing one or several investments including fixed rate accounts, mutual funds and variable annuities. Your investment selection should be based on your goals for your retirement savings, your risk tolerance, and the length of time you have to invest. These active providers offer you the option of changing your investment selections at any time.

DISTRIBUTIONS

Once you terminate from employment, you are eligible to take distributions from your RIC accounts. You do not have the option to receive a distribution from your RIC 457 accounts while you are employed except in the case of an approved Unforeseeable Emergency, Cash Out, or an IPERS service credit purchase. Unforeseeable Emergency withdrawals are only approved in rare circumstances, such as a significant loss of income or unexpected

deferred compensation program

medical expenses that are not covered by insurance, natural disasters, etc. RIC does not have a loan provision.

Roth assets: Tax-free (qualified) distributions of Roth assets must meet **all** of the following criteria:

1. The participant has a distributable event (termination of employment, death, disability, or service purchase);
2. The participant must be age 59½ or older; **and**
3. The account must have been held for at least five years.

If you take a distribution of Roth assets prior to meeting all of the three conditions above, you may be taxed on all or a portion of your investment earnings.

If you are invested with one of the following providers, you do not need to contact the Department of Administrative Services. You may request a distribution directly from your active provider at the numbers listed.

AXA Equitable	877-800-7279 option 3 or (515) 225-1141 in Des Moines
Hartford Life	800-528-9009
Horace Mann	877-602-1861
ING Financial Advisers	800-555-1970 or (515) 698-7973 in Des Moines
Nationwide Retirement Solutions	877-677-3678
Security Benefit	1-800-888-2461
TIAA-CREF	1-888-877-1446
VALIC	1-800-945-6763 or (515) 267-1099 in Des Moines

If you are invested with any provider other

than those listed, please complete the *RIC Distribution Form* and call your provider to confirm whether or not you are also required to complete a provider distribution form.

OPTIONS AT RETIREMENT

Before you retire, consider the option of deferring your unused vacation pay and sick pay to your RIC account.

1. **Leave your assets fully invested** in RIC. Participants are required to begin distributions at age 70½, at which time you must begin taking at least the IRS required minimum amount annually. If you leave your assets in RIC, you have the option of changing your investment selections and/or provider at any time (some product restrictions may apply). Your 457 Employee Contribution Account is not subject to a 10 percent early withdrawal penalty by the IRS. 401(a) assets are subject to a possible 10 percent penalty by the IRS prior to age 59½.

2. **Take income** in one of the following ways (some product restrictions may apply).

- Total lump sum distribution
- Partial lump sum distributions
- Systematic/periodic payments
- Lifetime payments

For tax information on distributions, see the Special Tax Notice attached to your distribution form. Be sure to check with your provider for possible surrender charges.

3. **Roll over** all or a portion of your assets to a 457, 401(k), 401(a), 403(b), 403(a), IRA (traditional or rollover), or SEP. If eligible, you may purchase IPERS service credit with your funds. This is a non-taxable event. Once you roll your 457 employee contribution assets to a qualified plan or IRA, you may be subject to a 10 percent penalty by the IRS if you take distribution from the new plan before age 59½.

additional employee benefits

Employee Assistance Program (EAP)

WHAT IS THE EMPLOYEE ASSISTANCE PROGRAM (EAP)?

The Employee Assistance Program (EAP) provides confidential, professional assistance to employees and family members of employees of the Executive, Legislative and Judicial Branches of State government. EAP services are provided by Employee & Family Resources (EFR), a private agency under contract with the State, and include assessment, short-term counseling, and referral to appropriate community agencies.

EAP counselors are not state employees. Calls to EAP counselors are confidential within strict legal limits. They will not tell anyone you called or release any information without your written permission unless a legal exception applies. Legal exceptions include child or dependent adult abuse or neglect or life threatening situations.

WHAT TYPES OF SERVICES DOES EAP PROVIDE?

Counseling Services

EAP counseling services are intended to help people before problems interfere with job performance. Problems for which the EAP counselors can provide help include:

- Alcohol or other drug abuse
- Marriage or family problems
- Financial consultation (budgeting, investing)
- Health or stress concerns
- Career struggles/job burn-out
- Death/dying issues
- Interpersonal conflicts
- Workplace conflicts
- Legal concerns (personal, non-employment related)

Appointments with EAP counselors are available some evening and weekend hours, as well as

during business hours. You may see a counselor on your own time and no one will need to know. If you need to see an EAP counselor during work time, you will need to:

- Get approval from your supervisor for time away from work.
- Sign a release of information form provided by the EAP counselor. This allows the counselor to confirm your work time attendance with your supervisor. No other information will be released without your written permission.

Life Coaching Services

Life Coaching services are intended to help you and your family members resolve life issues. Coaching services provide a trained life coach, a personal, secure website, scheduled telephone sessions with your life coach, and the ability to communicate with your life coach through your personal website.

A few examples of the areas where life coaching might be of help to you include:

- Family issues
- Caring for a dependent adult
- Couple/marital relationships
- Grief/loss
- Weight management
- Smoking cessation
- Work/life balance

These are just a few examples of the types of situations where life coaching might be a good alternative to in-person counseling.

Of course, the choice is yours. You can still have face-to-face contact with a counselor if you prefer. Life Coaching services are offered **as an alternative** to the in-person assessment and brief counseling services that are currently offered.

additional employee benefits

HOW MUCH WILL IT COST (TO GO TO EAP)?

There is no charge to you for services provided by the EAP. However, EAP services are intended to be short-term in nature. Life coaching services are generally provided for up to nine weeks.

Counseling services are limited to three (3) sessions with an EAP counselor per incident. If an EAP counselor refers you to other resources for additional help, those resources may charge for their services. EAP counselors will work with you to identify resources that are affordable or that may be partially covered by your health insurance. If you have questions about whether you are covered by the EAP, contact your Personnel Assistant or District Court Administrator.

additional employee benefits

Workers' Compensation

If you are injured on the job as a result of your employment, you may be eligible for Workers' Compensation benefits. Workers' Compensation benefits are provided to you by law and do not require any action by you to obtain coverage. Under Workers' Compensation, you may be eligible for wage replacement and medical care. If you sustain an injury or illness that you believe is work-related, you must notify your employer, who will ask that you complete a first report of injury. Your supervisor or Personnel Assistant can help you with this process.

Your first report of injury will be sent to Sedgwick Claims Management Services (Sedgwick CMS) for evaluation and handling. Sedgwick CMS, a national third party administrator in the area of Workers' Compensation, assumed responsibility for the State of Iowa's Workers' Compensation claims on July 1, 2001. They are responsible for claims intake, evaluation, direction of medical care, benefit payments, and all other aspects of the day-to-day handling of Workers' Compensation claims filed by State of Iowa employees.

If your Workers' Compensation claim is approved by Sedgwick CMS, every effort will be made to assist you in returning to work. When available, you will be given a restricted duty assignment until you recover enough to return to your regular job. Your job class and rate of pay will not be reduced while you are performing your restricted duty job. If you refuse to accept a temporary restricted duty assignment, your Workers' Compensation benefits may be suspended. The original period of restricted duty is the hourly equivalent of 20 workdays (pro-rated for part-time employees),

or until you are medically released to full duty, whichever is less. In certain cases, extensions may be granted.

If your claim is denied by Sedgwick CMS, a letter will be sent directly to you. This letter should be presented to your group health carrier if they deny medical coverage based on the Workers' Compensation filing. The Iowa Department of Administrative Services is responsible for the management of the program and the contractual agreement with Sedgwick CMS.

All communication and correspondence regarding Workers' Compensation claims to Sedgwick CMS should be directed to:

additional employee benefits

Employee Discount Program

State of Iowa employees can save money on purchases with discounts on computers, cell phones, hotels, flowers, jewelry, clothing, gifts, restaurants, and more! You'll find valuable offers from your favorite merchants, including Apple, Target, Costco, Disney World, Dell, Verizon, and AMC Theaters. You'll also find discounts from local and statewide businesses.

The Employee Discount Program is administered by PerkSpot, a company that manages employee discount programs for a variety of employers.

Eligibility requirements are set forth by the discount vendor and generally include all permanent State employees. Employees must contact the vendor for any specific questions or concerns and for all customer service functions. Employees and vendors can email comments or suggestions to PerkSpot.

TO GET DISCOUNTS

To take advantage of the Employee Discount Program, create an account with PerkSpot using your personal email address at www.iowa.perkspot.com. If it is requested, enter the company code "Iowa". You will then receive a confirmation email with login instructions.

After you have created your account you can log in at www.iowa.perkspot.com to see all discount offers available to State of Iowa employees. Most discounts at this time are for on-line purchases only, but as the program evolves and more discounts are added, more on-site discounts may become available. If the

discount is accessible online, the vendor should provide a special access code to you.

Vendors' requirements for you to receive discounts may vary and can include coupons, flyers, and/or presentation of your State of Iowa Employee ID card. Employees must contact the discount vendor for any proof of employment requirements, typically a pay stub or State ID. Some vendors may include retirees in their offers. If you do not have any identification at the time of purchase, the vendor may not honor the discount.

If you experience any difficulties with any discount or service, please contact PerkSpot by sending an email to help@perkspot.com.

continuing insurance coverage upon termination of state employment

COBRA

HEALTH AND DENTAL INSURANCE

If you leave State employment, the federal Consolidated Omnibus Budget Reconciliation Act (COBRA) provides for continuation of health and dental benefits coverage at the group premium rate after your coverage with the State ends. However, certain events must occur for any persons covered under your contract to be eligible (see events below).

The State's share of the premium payment for health and dental benefits will cease at the end of the month in which the qualifying events occurs, and you will be responsible for full payment of the premium. COBRA coverage begins the first of the month following the qualifying event. The COBRA election period is 60 days after the later of:

- the date coverage would otherwise end, or
- the date of the *COBRA Notification/Election Form*.

If your employment ends, the Department of Administrative Services will mail a *COBRA Notification/Election Form* to you within

two weeks following your last paycheck. The notification includes monthly benefit costs and election instructions. In the event of the death of an active employee, the family will receive notice of their COBRA rights, if applicable. If an employee divorces, reduces hours, or has a dependent that is no longer eligible for coverage, the employee must notify his or her Personnel Assistant within 60 days following the event so that the Personnel Assistant can send the COBRA information.

PLEASE NOTE:

COBRA rights will not be extended to a Domestic Partner or his/her children, if the relationship terminates, if the employee terminates from State employment, or if the domestic partner's children have an event that makes them ineligible for employee's plan.

You can see a copy of the *General Notice of COBRA Continuation Coverage Rights* at www.benefits.iowa.gov/benefit_documents/COBRA_notice.pdf.

EVENT	MAXIMUM ELIGIBILITY PERIOD BEYOND TERMINATION
Employee Termination/Resignation	The employee and covered dependents have 18 months of COBRA eligibility. If the employee meets the Social Security Administration's definition of disabled at any time during the first 60 days of COBRA coverage, the employee and covered dependents have 29 months of COBRA eligibility.
Death or Divorce of Employee	The covered dependents have 36 months of COBRA eligibility.
Employee Reduces Work Hours; No Longer Eligible	The employee and covered dependents have 18 months of COBRA eligibility.
Employee's Dependent No Longer Eligible (Over age 26, full-time student over age 26 and marries or graduates)	The covered dependent has 36 months of COBRA eligibility.
Employee on Active Military Duty	The employee and covered dependents have 24 months of COBRA eligibility.

continuing insurance coverage upon termination of state employment

Life Insurance

When you leave State employment, your State-sponsored life insurance coverage ends. Depending on the reason you are leaving, you may have more than one option for continuing your life insurance coverage at your own expense.

PORTABILITY

If you leave State employment prior to your Social Security Normal Retirement Age, you may be able to continue your basic and supplemental life insurance through a portability provision. You can elect to port 50, 75, or 100 percent of the amount of insurance that is ending. Accidental death and dismemberment coverage cannot be continued through this provision.

Portability is NOT available if you:

- Are at or above Social Security Normal Retirement Age; or
- Are applying for Long Term Disability benefits and are eligible for continuation of your group life insurance under the waiver of premium provision.

Your Personnel Assistant will complete the employer section of the *Life Insurance Portability Form*. Once you receive this information, it is your responsibility to contact The Hartford and submit any required information to them. Any resulting coverage is provided under the terms of the group portability contract.

CONVERSION

You can elect to convert your group term life and accidental death and dismemberment insurance to an individual whole life policy through the life insurance carrier, currently The Hartford. Your Personnel Assistant can provide you with the forms and information that you will need to convert your life

insurance. Once you receive this information, it is your responsibility to contact the insurance carrier, and any resulting coverage becomes an individual contract between you and the insurance carrier.

Termination Due To Approval for Long Term Disability

HEALTH AND DENTAL INSURANCE

If you terminate employment upon approval for Long Term Disability (LTD), in lieu of COBRA coverage, you are allowed to continue your coverage with the State group for as long as you remain disabled according to the plan definition of disability. The State's share of the monthly premium will cease at the end of the month in which your employment terminates. LTD coverage will begin the first of the month following termination and you will pay the full monthly premium for any insurance coverage you choose to keep.

You may drop your State health and/or dental plan completely. However, there is currently no provision for rejoining the group at a later date.

If you continue your insurance coverage with the State of Iowa group, you will be able to participate in the annual enrollment and change period, which will allow you to change your health plan every year. You can continue your group health and group dental coverage separately or together. You do not have to elect to continue in both plans. Your benefits as a member of the Retired/Disabled group are identical to benefits for the plan you held as an active employee.

If the LTD carrier determines that you are no longer eligible for LTD benefits and you are not drawing a retirement benefit, health and dental benefits will stop. You will need to purchase

continuing insurance coverage upon termination of state employment

individual health and/or dental coverage at that time.

You can continue your coverage with the group if you become eligible for Medicare. It is your responsibility to submit proof that you have Medicare Parts A and B to your health insurance carrier. Medicare will become the primary payor on claims and the State group will pay as secondary.

In addition to Parts A and B of Medicare, you may enroll in **SilverScript**, a Medicare Part D Prescription Drug Plan. Enrolling in SilverScript is voluntary. However, enrolling will reduce your monthly retiree premium because SilverScript will coordinate on drug cost with your Wellmark plan. Your prescription drug benefits will not change. You will continue to have the same drug plan that you had as an active employee. However, SilverScript will pay on your prescriptions as primary and the State's group will become secondary. There is a separate monthly premium for SilverScript. For more information, contact DAS at 515-281-6124 or to enroll, contact SilverScript at 1-866-808-7475.

Generally, Medicare eligibility is granted when you turn age 65. It can also be granted at an earlier age if you have a disability. Once you become Medicare eligible, you may elect to drop the State group coverage and purchase a private Medicare Supplement Policy. A Medicare Supplement Policy differs from the State group in that the benefits provided vary by supplement option. If you continue with the State group plan after you become eligible for Medicare, your benefits do not change. Benefits offered to Medicare eligible persons are the same as the benefit plan offered prior to becoming Medicare eligible.

When you become eligible for Medicare, you

have the option of enrolling in the Employer Group Retiree Program N (Group N plan) and a Group Medicare Blue Rx plan (Silver or Gold), sponsored by the State of Iowa. This plan is only available to people who are eligible for Medicare and their spouses and/or dependents who are also eligible for Medicare. The plan design is similar to the Medicare Supplement Plan N that you can purchase individually. Contact DAS for more information at 515-281-6124 or visit www.benefits.iowa.gov/retirees_medicare.html.

You may wish to explore private Medicare supplemental plans as an option. There are many to choose from.

Employees must see their Personnel Assistant for specifics and the required paperwork at the time of termination of employment.

LIFE INSURANCE-UNDER AGE 60

If you are under age 60 when your Long Term Disability (LTD) benefit payments begin, your life insurance automatically continues in the same amount that you maintained while you were working. You will not have to pay premiums for your coverage as long as you continue to be disabled according to the State's LTD insurance carrier. The insurance is subject to the normal age reductions of coverage in your group contract. Your group life insurance will end when you are no longer disabled according to the group definition of disability or until you reach Social Security Normal Retirement Age, whichever occurs first.

If your Long Term disability coverage ends, your life insurance coverage also ends. You can elect to convert your group term life insurance to an individual whole life policy through the life insurance carrier. The Hartford will provide you with the forms and information that you will need to convert your life insurance.

continuing insurance coverage upon termination of state employment

LIFE INSURANCE-OVER AGE 60

If you are age 60 or older on the date your disability payments begin, you are not eligible to have your life insurance continued without having to pay premiums. You are eligible to continue your life insurance coverage by paying your own premiums. You can choose to continue coverage through the portability or conversion privilege.

Contact The Hartford at 1-877-320-0484 for more information about continuing life insurance.

continuing insurance coverage upon retirement

HEALTH AND DENTAL INSURANCE

(Excludes employees covered by the State Police Officers' Council)

When you retire, you can continue to participate in the State of Iowa group health and dental plans. Coverage in the active employee group will cease at the end of the month in which you retire. Your coverage as a retiree will begin the first of the month following retirement.

You may drop your State group plan completely. However, there is currently no provision for rejoining the group at a later date. As a retiree, you will be able to participate in the annual enrollment and change period, which will allow you to change your health plan every year. You can continue your group health and group dental coverage separately or together. You do not have to elect to continue in both plans. You can continue your coverage with the group if you become eligible for Medicare. It is your responsibility to submit proof that you have Medicare Parts A and B to your health insurance carrier. Medicare will become the primary payor on claims and the State group will pay as secondary.

In addition to Parts A and B of Medicare you may enroll in **SilverScript**, a Medicare Part D Prescription Drug Plan. Enrolling in SilverScript is voluntary. However, enrolling will reduce your monthly retiree premium because SilverScript will coordinate on drug cost with your Wellmark plan. Your prescription drug benefits will not change. You will continue to have the same drug plan that you had as an active employee. However, SilverScript will pay on your prescriptions as primary and the State's group will become secondary. There is a separate monthly premium for SilverScript. For information contact DAS at 515-281-6124, or to enroll, contact SilverScript at 1-866-808-7475.

The State of Iowa has determined that your

prescription drug coverage with the State's health care plans is as good as or better than the standard Medicare prescription drug coverage (Part D). This means that your State of Iowa coverage is considered "creditable coverage" and that you will not pay extra if you later decide to enroll in Medicare prescription drug coverage. Please review the *Notice of Creditable Coverage* on the DAS benefits web page for Medicare-eligible retirees or see your Personnel Assistant for a copy.

Generally, Medicare eligibility is granted when you turn age 65. It can also be granted at an earlier age if you have a disability. Once you become Medicare eligible, you may elect to drop the State group coverage and purchase a private Medicare Supplement Policy. A Medicare Supplement Policy differs from the State group in that the benefits provided vary by supplement option. If you continue with the State group plan after you become eligible for Medicare, your benefits do not change. Benefits offered to Medicare eligible retirees are the same as the benefit plan offered prior to becoming Medicare eligible.

A retiree's surviving spouse, if covered at the time of the former employee's death, is allowed to continue coverage with our State of Iowa group health and dental plans.

When you become eligible for Medicare, you have the option of enrolling in the Employer Group Retiree Program N (Group N plan) and a Group Medicare Blue Rx plan (Silver or Gold), sponsored by the State of Iowa. This plan is only available to people who are eligible for Medicare and their spouses and/or dependents who are also eligible for Medicare. The plan design is similar to the Medicare Supplement Plan N that you can purchase individually. Contact DAS for more information at 515-281-6124 or visit www.benefits.iowa.gov/retirees_medicare.html.

continuing insurance coverage upon retirement

You may wish to explore private medicare supplemental plans as an option. There are many to choose from.

See your Personnel Assistant for specifics and the required paperwork at the time of retirement.

LIFE INSURANCE

When you retire, your State-sponsored life insurance coverage ends. If you are below Social Security Normal Retirement Age (SSNRA), you can elect to continue your insurance coverage by either porting or converting your coverage. If you are at or above SSNRA, you are only eligible to convert your coverage. Your Personnel Assistant will provide you with the forms that you need to continue your life insurance. Once you receive this information, it is your responsibility to enroll in coverage with the insurance carrier. Any resulting coverage becomes an individual contract between you and the insurance carrier. Call The Hartford at 1-877-320-0484 for detailed information about continuing your life insurance coverage.

SICK LEAVE INSURANCE PROGRAM

If you are an AFSCME, UE/IUP, or Non-Contract covered employee in the Executive Branch and have attained the age of 55 on your last day of employment and are eligible for a bona fide retirement, you may participate in the Sick Leave Insurance Program (SLIP). This program allows you to convert your unused sick leave into a bank to be used toward the purchase of the State's health insurance plan after retirement and until you are eligible for Medicare.

This program does not include elected officials, employees in the Judicial or Legislative branch, Board of Regents employees, or SPOC-covered employees. Those groups may be eligible for similar programs that are designed just for them. This program is for health insurance only. It can not be used for dental insurance or any health insurance program except the plans offered in the State of Iowa Employee's Group Insurance Plan.

Upon a bona fide retirement, defined as applying for and receiving monthly State pension benefits, you will receive cash payment for up to \$2,000 of your unused sick leave. This payment will be made on your final pay check. Any remaining balance shall be converted and paid as follows upon a bona fide retirement:

<u>Sick Leave Balance</u>	<u>Conversion Rate</u>
0 to 750 hours	60% of value
over 750 to 1,500 hours	80% of value
over 1,500 hours	100% of value

The value of the sick leave bank is calculated as follows:

- identify the total number of hours in the sick leave bank on the last day of work
- multiply the total sick leave balance times the regular hourly pay
- subtract the \$2,000 sick leave payment
- multiply the remaining amount times the conversion rate

The result is your sick leave account balance.

The State will pay its share of the monthly premium from this account until one of the following occurs:

- you cease participation in the State's group insurance program
- the account is exhausted
- you fail to pay your share of the premium due, if necessary
- you become Medicare eligible
- you return to permanent employment with the State of Iowa
- you die

When the sick leave account is exhausted or you become eligible for Medicare, you may still continue coverage with the State's group plan. You would then begin paying the appropriate monthly premium without any State contribution.

For more information, visit the SLIP website at www.benefits.iowa.gov/retirees_slip.html.
